

# Apollo Institute of Hospital Administration PLACEMENT BROCHURE 2014 BATCH - XIX

Master's Degree in Hospital Management

#### Placements 2014

#### **CHAIRMAN'S MESSAGE**

I am happy to note that yet another batch of students of **Master's Degree In Hospital Management** are successfully completing their internship and are ready to take their place in the professional world.

India is emerging as a major global health player with doctors par excellence, world-class technology and a growing chain of super specialty hospitals, striving to meet the health care needs of the society.

Worldwide, there is an increasing trend of professional management of hospitals to facilitate effective integration of a vast gamut of health services, to enable better treatment of empowered patients and to bring in standardization in health care delivery.

The health care industry in India is taking a proactive stance to adapt to this changing environment. Indian hospitals today, are keeping pace with the hospitals in developed countries like U.S. and U.K. Our hospitals are complying with internationally accepted standards like JCI accreditation and our results are on par with the best in the world. Yet there remains much to be done.

Today, more than ever before, India needs a cadre of well trained and professionally manned executives, who can give the needed direction and add momentum to our health care delivery system. I am confident that the present **19th batch of MDHM** with their sound knowledge base and problem solving capability will further enhance the 'continuum of care' and ensure healthcare of the highest quality.

I congratulate each and every one of the outgoing batch and wish them all the success in their careers. My best wishes to the faculty for their dedicated efforts.

Dr. Prathap C Reddy

**Chairman - Apollo Hospitals Group** 

#### **SECRETARY'S MESSAGE**

It gives me immense satisfaction that successive batches of students trained by AIHA, have been well received by the industry and today, many of our senior graduates occupy key leadership positions in India and abroad, delivering quality health care management.

Sweeping changes are taking place in healthcare scenario, posing new challenges to the budding hospital executives. Hospitals IT systems are moving away from traditional areas of billing, inventory etc. to also cover important areas in clinical care and clinical decision making. Improved networking within hospitals is leading to better sharing of information and dissemination of knowledge.

Today's hospital administrators need to cope with multi cultural diversity, increasing professionalism in health care management, medical ethics, compliance of various government regulations, rapid strides in medical technology etc.

The **MDHM** course of **AIHA** has been designed to meet all these requirements, with a sound grounding in principles of basic management and an exhaustive exposure to medical and administrative practices in hospitals. I am sure with this background this batch of students will continue in the path set by the alumni.

I take this opportunity to congratulate the students of the 19th batch and wish them grand success in their chosen careers.

Mrs. Sangita Reddy

Managing Director -Operations, Apollo Hospitals

#### **DIRECTOR'S MESSAGE**

The joy and sense of fulfillment on seeing one's student growing to be capable of accepting professional challenges is the ultimate. As the 19th batch of students graduate this academic year, we will be experiencing that joy all over. The mission of Apollo Hospitals Group since the inception of the first hospital over three decades ago is to deliver quality health care within the reach of every individual.

There has been a paradigm shift in determining the quality of patient care provided at a hospital. It is neither the architecture of the hospital building nor the number of tests and procedures the patient has to undergo, which determines whether the hospital is good or bad. It is the positive experience and outcome that counts – the patient's health.

The graduates of **AIHA** are trained in the Apollo tradition of consummate excellence of the highest standards. The graduates are trained to practice innovative thinking and have the demonstrated ability to meet the demands of the health care consumers.

Following the path laid by the previous batches, the present group is well equipped to orchestrate the provision of premier quality of patient care, thrive under increasingly competitive environment and practice cost containment. Since the students of the postgraduate program, **MDHM** are in increasingly responsible leadership positions in the health care sector in India and abroad, it attests to the quality of Apollo's academic standards.

In addition to the demanding two-year course work taught by seasoned faculty followed by a rigorous four-month internship, the graduating class is well versed in both theory and practice of healthcare management.

I wish the graduates the very best in their professional and personal pursuits as they strive to bring the best quality of health care.

Prof. D. Obul Reddy

**Director, AIHA** 

#### **DEAN'S MESSAGE**

Healthcare is among the fastest growing industries in India and abroad because of increasing population and life expectancy, discovery of new diseases and treatment modalities, organizational complexities, complex rules and regulations, higher expectations, and demand for efficiency as well as enhanced quality of care.

It is a known fact that healthcare industry is recession proof and trained healthcare professionals comprise the biggest segment of interstate and international migration. The opportunities for employment and entrepreneurship in healthcare are limited only by one's imagination. A high majority of employment opportunities in healthcare are outside the four walls of the hospitals.

The graduates of Apollo Hospitals Educational & Research Foundation's Master's degree programs are serving in progressively responsible positions in a wide variety of healthcare related occupations in India and abroad. A sample of their areas of employment include hospital operations, quality control, administration, home health care, assisted living, health insurance, healthcare IT, consulting, medical law, medical tourism, hospital risk management, public health, research organizations, NGOs, and the like.

As postgraduate degree holders, one must co-annually pursue additional specialized qualifications in areas of personal interest as well as areas of future professional opportunities a decade or two down the career path. A recent advertisement for a Chief Operating Officer (COO) for a leading hospital in India required over 30 different skill sets. They ranged from achieving hospital's objectives, effective administration of all operations collective responsibility for corporate governance, working with CEOs and HODs to ensure value for money activities are auctioned and audit recommendations are implemented.

The responsibility also included disaster management, accreditation, widening the corporate and TPA customer base, coordinating IT activities, and of course cost containment to me on a few. The salary range given is Rs.20 – 30 lakh P.A. and the candidate is expected to have 10 to 18 years experience.

To be successful in healthcare, one should be able to balance hard and so skills. To achieve balance between hard and so skills, one need to: (1) admit that so skills are important, (2) rethink hard and so skills, and (3) get help from communications coach. Try to be professional and ethical. Hopefully, 50 years down the road, you can also say, "I have been working for 50 years but never applied for a job in life." Good luck!

Prof. M. Habeeb Ghatala

Dean for Non Medical Institutions

Apollo Hospitals Educational & Research Foundation

#### **ABOUT AIHA**

Apollo Institute of hospital administration (AIHA), established in 1994,offers Master's Degree in Hospital Management. It is affiliated to Osmania University, approved by the AICTE and sponsored by Apollo Hospitals Educational & Research Foundation. AIHA has completed fifteen eventful years of teaching and research. It has trained and placed over 450 students who are in progressively responsible leadership positions in hospitals and health care institutions in India and abroad.

The location and attachment of the institute to the Apollo Health City in Hyderabad, with access to its resources, places AIHA in a class by itself. The president of the Governing body of AIHA is Padma Vibhushan, Dr. Prathap C. Reddy, Chairman, Apollo Hospitals Group.

The Institute is located within the premises of Apollo Hospitals, Hyderabad in a 30-acre scenic environment with a serene and peaceful atmosphere. The Institute's library is well equipped with a wide-range of books on Hospital Management. The library also subscribes to a 30 number of National journals on healthcare management, marketing, economics, finance and general management. At present, there are about 2553 titles with 4,679 volumes of textbooks. Reports of hospital visits, "Know Your Hospital" (KYH), presentations, hospital study tours and dissertations constitute a very important resource base of the Institute.

The Institute's Computer Center is equipped with state of the art systems. The entire center is connected through a LAN to facilitate sharing of resources. These facilities are offered with a view to provide hands-on training on relevant packages like, Hospital Information Systems (HIS) and applications in business and hospital management. Students have access to the Internet and are encouraged to use information available on the net for the purpose of academic assignments.

The institute also has a spacious Seminar hall with a capacity to seat 150 people. Weekly seminars and presentations by guest faculty and students are held here. It is well equipped with various audio-visual aids including overhead projectors and LCD projectors.

The institute's Library is well equipped with a wide range of latest books on Business Administration, Hospital Management, and allied subjects. The library also subscribes to a number of foreign and Indian journals, specifically on healthcare marketing, hospital administration, and general management. At present, there are about 2,553 titles with 4,679 volumes of textbooks. Selected books are being added periodically to keep it up to date. Comfortable arrangements are provided to enable students to read and refer books, periodicals, journals, economic dailies and EBSCO online journals database subscribed, which enables access to 160 International E- Journals. In addition to the above, the library has become a treasure trove of dissertation work, hospital study tour reports, and KYH reports, which have been generated by the previous Fourteen batches of MHM students.

Nature and Extent of involvement of faculty and students in academic affairs/improvements

At regular fortnightly meetings of faculty all issues pertaining to syllabus, its coverage, academic programmes, student attendance, discipline, seminars etc.. will be discussed thoroughly. There is a total involvement of faculty in running the institute and maintenance of academic standards.

In organization of various activities like seminars, foundation day celebrations students are deeply involved. They are involved right from conceptualization stage. Open House sessions provide regular opportunity to students for offering their suggestions for improvement.

#### **COURSE CURRICULUM**

#### MASTER'S DEGREE IN HOSPITAL MANAGEMENT

The course curriculum is spread over four semesters of classroom instruction and practicals/ Internship. The first and second semester subjects offer an in-depth knowledge about the fundamentals of business administration with special emphasis on business environment, organization theory, quantitative methods, and computers in administration. The third and fourth semester introduces students to subjects of hospital management and information systems and total quality management etc. These courses strengthen functional skills and deepen the understanding of the multi-dimensional environment in which healthcare organizations operate.

Care is taken to provide exposure to various types of hospitals of different ownership patterns, organizational design, services, policy issues.

#### **SALIENT FEATURES**

The cardinal concern of AIHA is to promote the philosophy of emphasizing self-learning. This requires an analytical mind, which proactively seeks the right knowledge, acquires the right skills and right attitudes. Helping the students develop better managerial capabilities and effectiveness is the prime object of the Institute.

Classroom learning is meant primarily for the theoretical inputs, which subsumes conceptual clarity, knowledge base, developing sensitivity to the business environment. Team learning is an effective approach, which AIHA has adopted. The student is invariably, put to work in teams all through his / her stay with Institute, since team management and team working is a prerequisite for a successful manager. Exchange of ideas, opinions, experiences are encouraged in the classroom, in teams, through group discussions and presentations.

Case Method pioneered at Harvard Business School is being adopted. Cases illustrating the contextual and process related aspects, which characterize hospital organizational problems, are used. This has been utilized since it forces decision-making under simulated hospital conditions and ensures optimum individual learning.

#### The methods of instruction utilized:

Formal lectures/Seminars / conferences / discussions on selected topics in hospital administration and principles of management,

Case studies based on real-life situations from hospital and industrial establishments which require critical and rational analysis,

Guest lectures from prominent executives of hospital and other industries to share their experiences, Field visits to various hospitals for observation and understanding of problems related to specific hospital and Audio - visual equipment

Weekly seminars are a regular feature. Speakers from various functional areas are invited to share their knowledge and expertise followed by interactive session on Wednesdays'.

**Hospital Visit** 

Know Your Hospital - on job training

#### Placements 2014

#### The following are few of the institutions where the alumni of the institute are found working:

Indraprastha Apollo Hospital, New Delhi

Norwick Heart Center, Kathmandu

Escorts Heart Institute, New Delhi

Sir Ganga Ram Hospital, New Delhi

Indian Hospital Corporation, New Delhi

Family Health Plan, New Delhi

MEDNET, New Delhi

**Global Hospitals** 

Rainbow Hospital, Hyderabad

Aware Rural Hospital, Hyderabad

Institute of Health Systems, Hyderabad

Apollo Hospital, Hyderabad

Apollo Health Street Ltd., Hyderabad

MEDNET, Hyderabad

Indian Hospital Corporation, Hyderabad

Alluri Seetharamaraju Medical College, Elluru

Dureshawar Hopsital, Hyderabad

Manipal Hospital, Bangalore

Wockhardt Hospital, Bangalore

Anthelio, Hyderabad

Hewlett Pacakard, Mumbai

Sunshine Hospital, Hyderabad

Lazarus Hospital, Hyderabad

Vasan Eye Care, Hyderabad

Prime Hospital, Hyderabad

Apollo Munich, Hyderabad

Apollo HealthHiway,Hyderabad

### **PLACEMENT 2014**

The current batch of 42 students will be completing the two years MDHM program in May 2014.

#### **CAMPUS PLACEMENTS**

Campus placement are scheduled from January, 2014 at the Apollo Institute of Hospital Administration (AIHA), Jubilee Hills, Hyderabad.

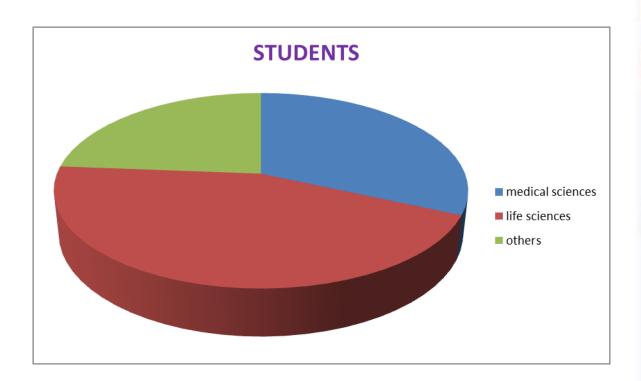

Interested organizations are cordially invited.

#### Procedure for Placement- 2014:

- 1. Organizations are requested to confirm participation in placement 2014.
- 2. Organizations are requested to send shortlist of the candidates to be interviewed by them during the campus placement.
- 3. Executives from the organization visit the venue for conducting interviews.
- 4. Declaration of the results of the interview to the institute.
- 5. Organization sends the formal offers letters of appointment to the select candidates through the placement cell of the institute.

#### **EDUCATIONAL BACKGROUNDS**

The students of the current batch come from varied backgrounds.

#### **FACULTY**

Dr. Habeeb Ghatala - B.sc, MHA, MS, Ph.D

Dr. D. Shree Devi - Asco. Prof - M. Com, M.B.A , Ph.D

Mrs. D. Manimegalai - Asst Prof - M.B.A

Mr. M. Krishna Kartheek - Asst Prof - B. tech, M.B.A

Dr. V. Koti Reddy- Asst Prof - BHMS, M.H.M, NET

Mrs. Vibha Venkataraman- Asst Prof - M.Sc, M.B.A (HHCM)

Dr. Balbir Singh- Asst Prof - BHMS, M.B.A (HHCM)

#### **VISITING FACULTY**

Dr. K. Hari Prasad M.D.CEO, Apollo Health City, Hyderabad.

Mr. Gaurav Loria MHM Head – Quality Dept., Apollo Hospitals, Jubilee Hills, Hyd.

Dr. P.S. Reddy M.B.B.S, M.D. (Hosp. Admin) Consultant, Medvarsity

Mr. T. KarunakarM.S.WVice President (HR), Apollo Hospitals, Hyderabad

Mr. Sanjeev Sharma M.B.B.S, M.DClinical Pharmacologist, Apollo Hospital, Hyd.

Dr. G.V.R.K. Acharyulu M.Tech, MBA, Ph.D.Associate Professor, UoH, Hyd

#### **PLACEMENT COMMITTEE:**

Placement Chairman- Principal

Placement Co-ordinator (Faculty)- Dr. V. Koti Reddy (contact: 8801709800)

Placement Co-ordinator (Student)- G.Pradyumna Reddy, B.Pharm, MHM

## Placements 2014

# Student Profiles

Name: Dr. Ashwanth Prathapani

**Registration Number**: 140412676002
